Small ACTS Manifesto

Trust - which must be respected and never put at risk. **Transparency** - the mean to maintain a sustainable community. **Dialog** - is the way to establish a truly trustful relationship. **Diversity** - people have many interests, but if you need a label, label yourself as a human. **Consistency** - things take time, intensity is not always the answer. Just what is essential to pass it forward. **Self-organization** - leaders emerge, but there should be no owners. **Do it!** - as simple as you can. **Give, give, give!** - you'll be impressed by how fast things will come back. **Example** - that's how you must teach, live and learn. **Personal Contact** - the richest experience, not matched by any media or technology.
